

Safe Place Children with Special Needs

Vibration offers a calming and organizing touch input. This may benefit children who:

- ★ Frequently chew on things
- ★ Bite others
- ★ Are picky eaters and are texture-sensitive
- ★ Dislike having their teeth brushed or face washed
- ★ Have Autism Spectrum Disorder or pervasive developmental delay
- ★ Need to strengthen mouth muscles
- ★ Toddlers in sensory motor stages of play
- ★ Have been tube fed
- ★ Demonstrate self-injurious behaviors
- ★ Have mouth discomfort because of teething or TMJ

Provide:

- ★ Big Vibrating Bug
- ★ Vibrating mats
- ★ Vibrating pillows
- ★ Jitter Gitters
